Technical information

Research & Development Corner

Get spotless shine right out of the machine

- **Surfactant action** helps lower the items surface tension and increase the water sheeting effect.
- **Polymer action** helps suspend crystals/minerals and reduce deposit of minerals/soils on the items/dishwasher.

Instead of forming droplets, water sheets off surfaces, delivering the spotless shine that you and your customers expect.

Technical Description

- **EAN code:**
- **Appearance:** Liquid
- **Color:** Colored
- **Smell:** Odorless
- **PH (10%):** 2.5 to 3.5
- **Density:** 1100 g/l
